SENATOR MADE IN GERMANY

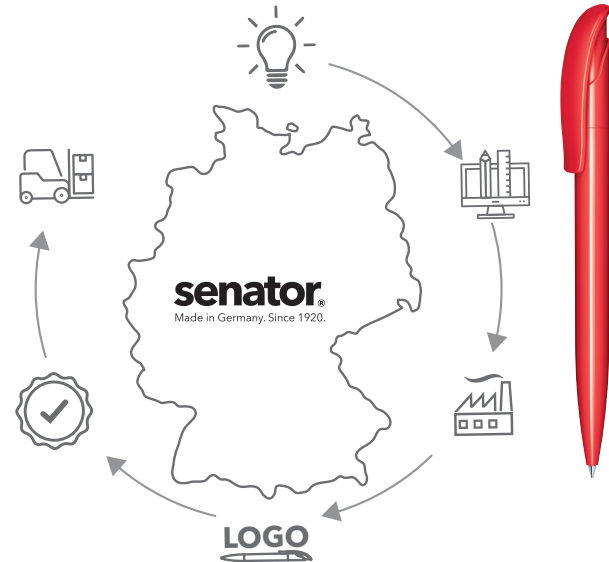

All senator® plastic pens are fully produced in Germany using 100% Green electricity. For us, "Made in Germany" goes far beyond mere advertising and encompasses the entire value chain from **design and development, injection moulding, assembly and printing to logistics and quality assurance**. This means we know exactly which raw materials go into every single writing instrument.

Your advantages with senator®:

- Short transport distances and proximity to the market
- Safe and durable products
- High and uniform quality standards
- Extensive know-how with experienced employees
- Flexibility in product development

With each of our writing instruments, we achieve a leading CO₂ footprint in the industry per metre of writing length, because **in terms of ecological footprint, a product "Made in Germany" clearly exceeds other imported products.**

www.senator.com

Senator® products are always the safe choice and fulfil all legal requirements. To us, the BSCI and Sedex membership is as self-evident as the certification according to ISO 9001 and 14001.
