# SENATOR MADE IN GERMANY

All senator® plastic pens are fully produced in Germany using 100% Green electricity. For us, "Made in Germany" goes far beyond mere advertising and encompasses the entire value chain from **design** and **development**, **injection moulding**, **assembly** and **printing to logistics** and **quality assurance**. This means we know exactly which raw materials go into every single writing instrument.

With each of our writing instruments, we achieve a leading CO<sub>2</sub> footprint in the industry per metre of writing length, because **in terms of ecological footprint, a product "Made in Germany" clearly exceeds other imported products.**

Senator® products are always the safe choice and fulfil all legal requirements. To us, the BSCI and Sedex membership is as self-evident as the certification according to ISO 9001 and 14001.

# PRINTED IN THE UK

We print all 1000 in 5 days locally for you in the UK with a digital print either on the **clip** or on the **barrel**.

- **Fast delivery time**  
We always hold stocks of senator pens and can directly pick them from our warehouse to start printing.
- **Short distances** from us to you  
We delivery directly from our premises near London.
- **Multi colour prints at no extra cost**  
The digital print uses the CMYK colour printing process for a multi colour result in one run. This saves extra printing steps and costs.
- Digital print **saves waste and energy**  
No screens used: hence less water, less energy, no waste!
