VIN TONIC

THE REFRESHING TREND DRINK THIS SUMMER

What could be better than enjoying the summer with a fresh drink? Whether it's with friends at home on the terrace or balcony, or spontaneously after work with colleagues, a light and summery fresh cocktail is always a welcome guest during hot temperatures.

Try the new Vin Tonic - a milder version of the popular gin and tonic and ideal for wine fans who want a refreshing cool-down on sunny days.

The new cocktail is very easy to mix. You may already have all the ingredients in your fridge or you can find them in the supermarket around the corner.

INGREDIENTS

- 120 ml dry white wine
- 120 ml tonic water
- ice cubes
- juice of 1 lime or lemon
- a few slices of cucumber
- a few leaves of mint or lemon balm for decoration

Pour the white wine into a glass with ice cubes and lemon juice and then fill with tonic water. Add the cucumber slices. Decorate with mint or lemon balm, relax, and enjoy!

Another delicious option: Try the combination with rosé wine and berries!

ENJOY THE SUMMER!
